Finding a way to pay less on your monthly TV & internet bill is an ever-growing challenge. With changes in the economy, wages down, and many seniors on fixed incomes, making home entertainment more affordable is not always easy. In order to get the best deals in your area, the first step is being aware of all the local deals and bargains that are being offered by TV providers in your area. Xfinity / Comcast Xfinity, formerly known as Comcast is the largest cable television operator in the United States. Xfinity provides service in 41 states, and covers over 7,000 zip codes which gives coverage to more than 21 million homes across the country. Here are a few of the latest offers from Xfinity: Here Are Some Tips For Getting the Best Cable TV Deals for Seniors Compare Prices from Multiple Providers In Your Area - When you're searching for an affordable cable TV plan for seniors, the #1 rule is to shop around for the best price. There are many deals and offers out there, but you want to make sure you select the plan that works best for you and your family. Ask For New Customer Promotions and Discounts - The most obvious tip is often overlooked. Sometimes just asking if the provider offers cable discounts for seniors can either save you a few dollars, or it can get you a few freebies, upgrades, or credits on your bill. Don't overlook the obvious way to save a few dollars.Redeem Any Pre-Approved Offers - Sometimes you'll receive pre-approved offers in the mail when you're not in the market for new TV service. If you've thrown some of those old offers in the junk drawer, bring them out when you're shopping for your new senior TV service. These offers can easily save money on equipment fees and installation costs.Get a Basic Cable Package - Sometimes when you're getting new TV service installed, it's tempting to get the biggest and the best plans with all the bells and whistles. If you're a senior citizen who's money-conscious, it may be best to start small and only upgrade when it's necessary.Reduce the Number of Cable Boxes - Another way to ensure you get the best senior deal on your cable TV or satellite plan is to only start with the minimum number of cable boxes. Most people will get the main box in the living room, and possibly in the bedroom. If cost is a major factor, start with 1 TV, and then upgrade when it's necessary.Qualify Along with a Spouse or Relative - Some TV providers will run a credit check as you're signing up for new TV service. If your initial payments are too high, qualifying with a spouse or relative with great credit can help to minimize up-front costs and installation fees. Don't Forget to Cancel Premium Channels - Most TV & satellite providers will throw in a few premium channels for free. Even the low cost cable plans for seniors will also include these channels for a 3 month period. Having these channels are great, but if you're a senior and cost is a factor, don't forget to cancel premium channels before the free trial ends.Ask About Auto Bill Pay - Another tip that many people don't know about is - signing up for auto-pay and paperless billing can save you between \$5 to \$10 per month on your bill. It doesn't sound like much in the short term, but month-over-month this turns into a nice savings for your TV bill.Eliminate DVR If Possible - Some TV providers throw in DVR as a free service, but some chill charge each month for it. If DVR isn't your thing, why pay extra for it each month? Most DVR services will add an additional \$5 per month to each cable box you have installed. This could potentially save you \$15 to \$20 each month.Be Nice to The Person on the Phone - This tip sounds a little strange, but simple courtesy and patience goes a long way. If you're nice and let the person know you're a senior 55+ and looking for a great deal, the rep will usually go above and beyond to help you find the senior TV package that's right for you.
